

Packaging Technician – Ampules and Vials

We are looking for someone with good mechanical aptitude, attention to detail, and who is a great team player. The job is packaging small scale runs, usually 100-1,000 units of a 2 mL fill, helping with hand filling and sealing in the lab, and packaging small amounts of chemicals, weighed precisely. This position does require working safely with lab-scale chemicals. The position is onsite in New Haven, Connecticut.

Responsibilities:

- Work with lab technicians to package batches of product
- Routine and emergency maintenance of our automatic filling machine
- Maintain neat and accurate documentation of all work
- Know safety protocol in a chemical laboratory
- Communicate effectively with the Production Manager

Qualifications:

- Must be fluent in English with good interpersonal and communication skills
- Experience working with small, precise machinery
- Mechanically inclined with ability to troubleshoot and address problems
- Good fine motor skills and ability for precise measurements
- General computer skills
- Attention to detail and ability to manage time efficiently
- Ability to excel in a fast paced, production environment

Details and Benefits:

Details:

- Job Type: Full-time on-site
- Pay: \$17.00 - \$22.00 per hour depending on experience
 - Evaluation after 3 months and then annually
 - Annual bonus
 - Paid Holidays, Vacation, Personal, and Sick Days

Benefits:

- Health insurance and Dental insurance is fully covered by AccuStandard for employees and their family
- Life insurance
- 401(k) with employer matching
- Student loan forgiveness program
- Tuition reimbursement

Schedule:

- Must be able to commute to New Haven, CT
- 8 hour shift
- Monday to Friday
- Overtime available occasionally
